

Nakita Oosthuizen

Having always been creative with her own makeup and after testing out a career in events management, Nakita decided to embark on what has been an incredible journey over the last 8 years, in which she has spent all her time and effort refining her skills and broadening her makeup experiences and, in the last 3 years, adding hairstyling to her repertoire.

In makeup artistry, no canvas is exactly like another. No face is exactly like another. That is what makes it so beautiful and exciting.

A great achievement for her was being apart of The Daily Abuse campaign that won numerous awards at The Cannes & The Loeries.

“Makeup is something that I have loved my whole life, I couldn’t imagine having any other career!”
