

# Carla Gersie

## instagram

After many years working and travelling throughout the world, Carla wanted to settle back in South Africa, and move into a career where she could express herself creatively, and work with diverse personalities on a daily basis.

She obtained a diploma in hairstyling and makeup from The Makeup Agenda in Cape Town and so began her new career.

Carla's ability to enhance a person's natural beauty, paired with the fresh and contemporary feel she strives to create with her work,

has led her to work extensively with popular lifestyle, fashion and beauty brands, as well as a number of celebrities, both locally and internationally.

Over the years, Carla has expanded her skills and explored many different avenues within the industry, and as such has extensive experience in stills, TV commercials, events and film, and a versatility of style ranging from natural makeup for sports and beauty brands, to bold fashion looks, and period hairstyling.

Working in an international production hub like Cape Town for 10 years, Carla has had plenty of experience in applying her skills to all ethnicities. She has also acquired a solid understanding of the different local and international markets' preferences.

Her friendly, easy-going personality and willingness to always go the extra mile make her a pleasure to work with on any production.
